for the your life and you. Heart racing, but reminding himself that strength and wisdom arose from a calm mind, Junior stood in the center of the small kitchen, slowly turning to study every angle of the room. "And maybe," said Agnes, caught up in the speculation, "when your life comes to an end in all those many branches, what you're finally judged on is the shape and the beauty of the tree." Celestina met them at the front door and flung her arms around Wally. He let go of his cane-Tom caught it-and returned her embrace with such ardor, kissed her so hard, that evidently residual weakness was no longer a problem. Whether making love or killing, he was never guided by bigotry. A private little joke with himself. But true. Three times, Mary vanished, and three times she reappeared, before she led the bamboozled Koko to her mother and father. "Neat, huh?". Otter stated it as an unfortunate fact, not as a moral assertion. Hound looked at him with appreciation. Living with the pirate king, he was sick of boasts and threats, of boasters and threateners. Celestina had chosen to shelter the bastard boy, and in so doing, she had declared herself to be Junior's enemy, though he'd never done anything to her, not anything. She didn't deserve him, really, not even one quick bang before the bang of the gun, and maybe after he shot Ichabod, he'd let her beg for a taste of the Cain cane, but deny her. She realized she hadn't turned on the radio. Before she could reach for the switch, she was asleep. She had expected horror, although perhaps not a horror quite as stark as this, and she had also expected to be crushed by it, destroyed, because although she was able to survive any misery that might be visited upon her, she didn't think that she possessed the fortitude to endure the suffering of her innocent child. Yet she listened, and she received the terrible burden of the news, and her bones did not at once turn to dust, though unfeeling dust was what she now preferred to be. One worrisome problem: Neddy might be found in the container before it had been hauled away, instead of at the landfill that preferably would serve as his next-to-last resting place. If his body was discovered here, it must be at a distance from any trash bin used by the gallery. The less likely the cops were to connect Neddy to Greenbaum's art-sausage factory, the less likely they also were to connect the murder to Junior. After using a paring knife to section and core an apple, Paul withdrew a sheet of stationery from his desk and uncapped a fountain pen. His penmanship was old-fashioned -in its neatness, as precise and appealing as fine calligraphy. He wrote: Dear Reverend White At the midpoint of the table, directly under the chandelier, the flashing silvery disc turned through the air, turned, turned, turned out of this world into another. Beyond the window, Barty failed to do any of the things that Agnes expected of a boy not fully enough part of the day to share its rain: He didn't flicker like an image on a static-peppered TV screen; he didn't shimmer like a phantom figure in Sahara heat or blur like a reflection in a steam-clouded mirror. "Get this through your head, you shit-for-brains. I lost a daughter, a precious daughter, my Naomi, the light of my life." Occasionally he woke in the night and heard himself murmuring the mantra aloud, which apparently he had been repeating ceaselessly in his sleep. "Find the father, kill the son." In April, Junior discovered three Bartholomews. Investigating these targets, prepared to commit homicide, he learned that none had a son named Bartholomew or had ever adopted a child. He did not answer Hound's question. "He came through the surgery well. He'll be in post-op for a while, then brought here to the ICU. His condition's critical, but there are degrees of critical, and I believe we'll be able to upgrade him to serious long before this day is over. He's going to make it." Leaving the engine running and the heater on, he got out of the car, leaned back inside, said, "Better lock up while I'm gone," and then closed his door. More than once, a passing nurse stopped to check on him and to advise him not to exhaust himself. The guy was carrying a purse, whatever that meant, and when he walked through the door, he had a goofy look on his face, but his expression changed when he saw Junior. The high point of his day was coming home to Perri. They met when they were thirteen, married at twenty-two. In May they would celebrate their twenty-third anniversary. Finally Vanadium said, "According to the lab report, the baby she was carrying was almost certainly yours." Thursday evening, his third in the hotel, he returned to the lounge for cocktails and another steak. The same tuxedoed pianist provided the entertainment. Now, however, he was thinking not about what Agnes's story might mean to Reverend White, but about what the minister might be able to do to provide at least a small degree of comfort to Agnes, who spent her life comforting others. Draped across his midsection, the terrible cold weight had chilled his flesh; but now his bone marrow prickled with ice at the thought of the birthmarked detective sitting silently in the dark, watching. Junior would have preferred dealing with Naomi, dead and risen and seriously pissed, rather than with this dangerously patient man. She was a duplicitous bitch, too. After coming on to him, after teasing a reaction out of him, she had run off and gossiped about him as though he had instigated the seduction. Worse, to make herself feel important, she had told the police her skewed version, surely with much colorful embellishment. By November 1967, the Father Brown detective stories, written for mystery-loving adults by G. K. Chesterton, thrilled Barty. This series of books would retain a special place in his heart for the rest of his life-as would Robert Heinlein's *The Star Beast*, which was among his Christmas gifts that year. He no longer had any reason to follow an exercise regimen. For twenty-three years, he'd needed to maintain good health in order to meet his responsibilities, but all the responsibilities that mattered to him had been lifted from his shoulders. Admitting to the likelihood that he would never again devote himself seriously to his business, Paul sold it to Jim Kessel, long his good right hand and fellow pharmacist. Clutching the red rose in his left hand, the brightly wrapped gift box half crushed in his right, Thomas Vanadium lay at Junior's mercy, with no tricks to perform, no quarter to set dancing across his knuckles. Now her mooring was Wally Lipscomb-obstetrician, pediatrician, landlord, and best friend--who arrived halfway through the reception. As she listened to Helen Greenbaum's sales report, Celestina held Wally's hand so tightly that had it been a plastic champagne flute, it would have cracked. Agnes had believed that through this ordeal, she'd largely spared her child from an awareness of the awful depth of her misery. In this, however, as in so many other instances, the boy proved to be more perceptive and more mature than she'd realized. Now she felt that she had failed him, and this failure ached like a wound. When she tried to say bow, the how of speech eluded her, and she sat as mute as if no words had ever passed her lips before. She switched on the windshield wipers. Repeatedly, in the arc of cleared glass, the graveyard was revealed in sharp detail, and yet the place remained less than fully familiar to her. Her whole world had been changed by Barty's dry walk in wet weather. Using this apartment as a base, Nolly and Kathleen had conducted some of the small skirmishes in the first phase of the war, including the ghost serenades. They left the place tidy. Indeed, the only sign that they had ever been here was a packet of dental floss left behind on the sill of a living-room window. In the morning, after their first night together, without either of them suggesting what must be done, Barty and Angel went in silence into the backyard and, together, climbed the oak, to watch the sunrise from its highest bower. Three years later, on Easter Sunday in 1986, the fabled bunny brought them a gift: Angel gave birth to Mary. "It's time for a nice ordinary name in this family," she declared. "Your mind is as fascinating as ever," he said. "Your soul as beautiful. Listen, Per, since we were thirteen, I was never primarily interested in your body. You flatter yourself shamelessly if you think it was all that special even before the polio." "My little girl,"

she said, and belatedly she realized that this might not be a policeman, after all, but someone trying to determine if she and Angel were alone in the apartment..He couldn't see into the next aisle through the gaps between rows of books, because the shelves had solid backs..He nodded. "You do. Yes. But you don't need to know right now. Later, when you're calmer, when you're clearer. It's too important to rush you through it now."..He pushed on the door, but still it resisted, and he surprised himself by letting out a bellow of frustration that expressed quite the opposite of self-control, though no one listening could have the slightest doubt about his determination to commit and command..The afternoon was winding down, and the lowering sky seemed to be drawn steadily toward the earth by threads of gray light that reeled westward, ever faster, over the horizon's spool. The air smelled like rain waiting to happen..With a thin hiss of disgust, Junior pulled away from the thing, whatever it was, withdrew the flashlight from his belt, and listened intently for sounds in the alleyway. No voices. No footsteps. Only distant traffic noises so muffled that they sounded like the grunts and groans and low menacing growls of foraging animals, displaced predators prowling the urban mist..Edom carried the honey-raisin pear pie, and Agnes toted Barty across the neatly cropped yard, to the front door. The bell push triggered chimes that played the first ten notes of "That Old Black Magic," which they heard distinctly through the glass in the door..After an interminable silence, the detective said, "Do you know what believe about life, Enoch?".Junior assumed the dead girl had come from a family of stature in the Negro community, which would explain the stonemason's accelerated service. Vanadium, according to his own words, was a friend of the family; consequently, the father was most likely a police officer.. "December 1, 1958, in Chicago, Illinois, a parochial-school fire killed ninety-five."..If this insurance payoff was not mere coincidence, if it was the wealth that had been foretold, then how far behind the fortune did the knave travel? Years? Months? Days?.Only madmen were capable of such butchery. Hopeless lunatics like Ed Gein, out there in Wisconsin, arrested just seven years ago, when Junior had been sixteen. Ed, the inspiration for Psycho, had constructed mobiles out of human noses and lips. He used human skin to make lampshades and to upholster furniture. His soup bowls had once been human skulls. He ate the hearts and selected other organs of his victims, wore a belt fashioned from nipples, and occasionally danced under the moon while masked by the scalp and face of a woman he had murdered..Junior realized he was on the verge of babbling, and with an effort, he silenced himself..The bitch was getting tired, but Junior still didn't like his odds in a hand-to-hand confrontation. Her hair was disarranged. Her eyes flashed with such wildness that he was half convinced he saw elliptical pupils like those of a jungle cat. Her lips were skinned back from her teeth in a snarl..Because they knew the date of the rape, and because that attack had been Phimie's sole sexual experience, the day of impregnation could be fixed, delivery calculated with more precision than usual..Neither of them needed to confirm their mutual attraction with even so much as an additional nod or a smile. Victoria knew, as he did, that their time would come, when all this current unpleasantness was behind them, when Vanadium had been thwarted, when all suspicion had been forever laid to rest..Now Junior threw back the covers and sprang out of bed. In double briefs, he restlessly roamed the hotel room..Although the Rolex was expensive, Junior cared nothing about the monetary loss. He could afford to buy an armful of Rolexes, and wear them from wrist to shoulder.. "Acute nervous emesis," Junior croaked. "I've never thought of myself as a nervous person."..Soon he realized this was a mistaken assumption, because when the instructor began trying to unknot him from his lotus position, a defensive numbness deserted Junior, and he became aware of pain. Excruciating.. "The exquisite kind," he replied, glad that he had read so many books on the art of seduction and therefore knew precisely the right thing to say..Alone with Agnes, the physician said, "I want you to take Barty to a specialist in Newport Beach. Franklin Chan. He's a wonderful ophthalmologist and ophthalmological surgeon, and right now we don't have anyone like that here in town."..He almost laughed at himself, but he recalled the disconcerting laugh that earlier had trilled from him in the men's room, when he'd thought about stuffing Neddy Gnathic into the toilet. Now he pinched his tongue between his teeth almost hard enough to draw blood, hoping to prevent that brittle and mirthless sound from escaping him again..Maria, after a single sip of Chardonnay, fled to the kitchen, ostensibly to check on the apricot flan that she'd brought, but in reality to press a cool and slightly damp dishtowel against her eyes..The disease hadn't corrupted her heart, and it had left her face untouched, as well. Lovely, she was, as she had always been.
